

Skills

- Dot Net Core
- JAVASCRIPT
- JAVA
- C#
- C++
- SQL
- JQuery
- UI/UX
- Testing and Debugging
- Microprocessors
- Agile /SCRUM
- Artificial intelligence
- Operating Systems
- Data Structures
- MVC / Razor Pages
- Git
- Troubleshooting
- Agile/Scrum
- MICROSOFT OFFICE
- REACT.js
- Version Control
- Optimization
- SDLC
- Cross-browser compatibility
- Process Control
- RESTful APIs
- Teamwork
- Critical Thinking
- Problem Solving
- Creativity
- Adaptability
- Leadreship

Education

Jordan University of Science and Technology

Bachelor of Science in Computer Engineering

Projects/ Work

Software Developer

New York State

06/2023 -
PRESENT

- Code, test and maintain ASP.Net/C# applications that are in compliance with program specifications and coding standards
- Utilize the following technologies in order to perform assigned duties: ASP.NET, C#, HTML, SQL Server, Oracle
